

## You're invited to LEGO® Group!

Based on the principles of LEGO® therapy, our LEGO® Groups use interactive activities to support the development of critical skills. At the sessions, participants are grouped into teams to work together to complete a LEGO® project. Each child has the opportunity to work in different roles and practice skills such as listening, turn taking, negotiation, sharing, problem solving and working together. A certificate is issued as participants achieve skills in each level.

### The benefits of LEGO® Club are:

- Uses Lego as a medium to communicate and build relationships
- Promotes social interaction,
- Promotes collaborative play in a structured environment
- Children practice joint attention, social communication, working towards a shared goal, turn taking and negotiation skills

### Who is this group for?

Children aged 8 - 16 years who can:

- Maintain listening skills
- Enjoy and are interested in LEGO
