

CAEP Plus Program

Thermoregulatory Dysfunction (TD) Grant

CAEP Plus TD Grant Application Form

The CAEP Plus TD Grant provides eligible individuals, who experience thermoregulatory dysfunction access to essential air conditioning to one area/room of their primary residence, to assist with controlling the temperature in their home.

Thermoregulatory Dysfunction (TD) is defined as significant loss of a person's capacity to control body temperature and is associated with medical conditions that result in the environmental person's health and bodily function being seriously affected when exposed to extremes of temperatures.

The grant is available to individuals who are eligible for the Community Aids and Equipment Program (CAEP) to fund equipment and AT that is not currently available through CAEP. More information on CAEP eligibility can be found on the Government of Western Australia website. Use the following link: wa.gov.au/service/health-care/community-health-services/community-aids-and-equipment-program-caep or contact your CAEP service provider.

For further information or to discuss the CAEP Plus TD Grant, please contact a member of the CAEP Plus Grants Team.

Submitting Grant Applications

CAEP Plus TD Grant applications can be submitted via email or mail.

To ensure the timely assessment of your grant application, please ensure:

- ALL relevant Grant Applicant and Allied Health Professional (AHP) sections of the application form are completed in full, are legible, and are signed as required.

Out of Policy Special Considerations

Where there are special circumstances or financial hardship, there is potential for Therapy Focus to review a CAEP Plus Grant Application and consider approving a grant applicant who does not meet eligibility criteria or is unable to co-contribute to the cost of a grant request over the ceiling limit.

Special circumstances you may wish to address in your rationale may include but are not limited to:

- Complexity or progressiveness of the disability.
- The number and age of any dependants and whether they have special needs.
- Current employment status.
- Requirement of several items of equipment, significant medical costs, other equipment costs, and frequency of replacement costs (e.g. consumable items or equipment itself).
- Significant expenses experienced by the grant applicant.

Please provide specific rationale and outline all factors that you would like us to consider in the 'Out of Policy' Application.

Letter Requesting the Installation of Air Conditioning

To be given to the Property Owner or Strata Manager

Dear Property Owner / Strata Manager,

Your tenant is applying for a CAEP Plus Thermoregulatory Dysfunction (TD) Grant, which provides eligible persons, who experience thermoregulatory dysfunction, access to essential air conditioning to one area/room of their primary residence, to assist with controlling the temperature in their home.

Thermoregulatory dysfunction is defined as significant loss of a person's capacity to control body temperature and is associated with medical conditions that result in the person's health and bodily function being seriously affected when exposed to extremes of environmental temperatures.

To be eligible for the CAEP Plus TD Grant, approval for the installation of an air conditioner must be provided by the property owner. A signed copy of the Approval for the Installation of Air Conditioning in Public Housing, Private Rentals or Strata Managed Properties is required for grant applications to be considered.

Please find attached the 'Request to Install Air Conditioning in a Rental or Strata Property' for your consideration. If you, the Property Owner, approve the request, please provide your written consent and the end of this request letter.

For more information on the CAEP Plus TD Grant or if you would like to speak to a member of the CAEP Plus Grants Team, please see the contact information below.
